Automatic Control Valve Hand-On Training

STATE OF THE ART WATER DISTRIBUTION SYSTEM TRAINING LAB

Hands on Training

Receive hands-on training from product experts; learn how to set and adjust pressure reducing, pressure sustaining and altitude valves; gain valuable troubleshooting knowledge using 100 psi of real water pressure in a safe and controlled environment.

Preventive Maintenance

Our training lab located in Chattanooga, TN allows you to see how control valves can solve common system issues of over/ under pressures, excessive water loss leakage, inadequate storage tank turn over, cavitation, water hammer and surge.

Water Loss & Pressure Management

Learn how to assemble, set and troubleshoot pressure reducing and pressure sustaining valves. Upstream and downstream pressure gauges allow for quick confirmation of successful pilot settings. Advanced NRW Non Revenue Water, water loss reduction through pressure management demonstration; show utilities the associated cost reduction of implementing a pressure management program.
